

**PRIDE PLUS**
AUTOMOTIVE

Classic Multi-Purpose Automatic Transmission Fluid

Description

- **Pride Plus GEN 3** Classic Multi-Purpose Automatic Transmission Fluid is formulated to meet the needs of high performance, multipurpose, power transmission fluid requirements. It is designed for use in passenger car and light truck automotive transmissions. It is a blend of high quality base oils and premium additives that provide outstanding oxidation and thermal stability, friction control, load-carrying ability, corrosion and wear protection as well as preventing the accumulations of deposits and the formation of sludge, varnish, and foam.
- It is especially effective in reducing and minimizing annoying transmission “chatter”.
- It also provides fast circulation during cold weather and excellent lubrication and performance when hot.

Features

- Provides quiet shifting
- Reduces wear of critical parts
- Reduces maintenance costs and extends transmission life
- Universal licensed product that meets the performance requirements of Dexron and Dexron III, which includes the prior GM Dexron/Ford ATF Mercon standards.
- Outstanding thermal stability and oxidation resistance
- Eliminates transmission noise and vibration
- Inhibits foaming
- Protects transmission against rust, corrosion and varnish

Typical Properties**Viscosity**

@ 40°C, cSt	33.8
@ 100°C, cSt	6.9
Viscosity Index	173
Brookfield Viscosity	
cP @ -40°C	13,550
Flash Point, °C	212
Pour Point, °C	-36
Color	Red

NOTE: The values are representative of current production and may vary within modest ranges.
