

## Saw Guide Oil

---

**Description** Pride Plus Advantage Saw Guide Oil is designed for the lubrication of arbor bearings and saw guide systems that utilize thin kerf technology. It is formulated with high viscosity index base stocks.

---

- Features**
- Designed to be used neat or as an emulsified lubricant.
  - Uses select additive to reduce friction between the saw and the guide components.
  - Uses select additive to control rust and corrosion.
  - Uses a tackiness agent to reduce slinging.
- 

- Applications**
- Gang Saws and Edgers
  - Saw Guides
  - Arbor Bearings
  - Saw Systems Ways and Gears
- 

<b>Typical Properties</b>	<b>ISO Grade (Product Code)</b>	<b>100</b>
Sp. Gravity @ 15.6° C		0.88
@ 40° C		110
@ 100° C		12.8
Viscosity Index		108
Pour Point, °C		-21
Flash Point, °C		230
P,ppm		250

**NOTE:** The values are representative of current production and may vary within modest ranges.
